#### To the Selectmen of the Town of Rochester.

GENTLEMEN: In compliance with the statute, I herewith respectfully present to you my annual report of the condition of the Fire Department for the year ending February 24, 1872—comprising the number of men in the several companies, and the apparatus, Reservoirs and Hydrants, with the losses by fire, amount of repairs, together with other items of interest to the

The condition of the Department, I am proud to say, is improving. Much has been done the past year and much more is necessary to be done the coming year, to make it sufficiently efficient to meet the pressing wants of the increasing community, the erection of buildings and the increase of merchandise, particularly in the three villages.

There are four Hand Engines, one Hook and Ladder

Carriage, and one Hose Company, viz:

Cochecho Engine No. 1, Rochester Village. Torrent Engine No. 2, Tiger Engine No. 3, Torrent Engine, No. 5, - Gonic East Rochester " Resolute Hook & Ladder, No. 1, Rochester Pioneer Hose Company, No. 1,

Cochecho No. 1 Engine is in perfect order, having been recently repaired and painted.

Torrent No. 2 Engine wants little repairs.

Tiger No. 3 Engine is an old machine, having been

in use nearly forty years; not sufficient for the wants of the present demands. A new or better Engine is necessary for Gonic Village.

Torrent No. 5 is in good order.

Resolute Hook & Ladder No. 1 is new and in perfect order.

Pioneer Hose Co. No. 1. There is no hose carriage for this Company. Hose and other apparatus have been purchased, and men appointed to manage the hose and hydrants in time of fire.

Towers with cisterns under them should be completed in Engine houses Nos. 2, 3 & 5, for the cleansing and drying the hose. It will be a matter of economy

to the town to have such completed.

There are 24 Reservoirs, 18 of which are located in Rochester Village, 3 in Gonic and 3 in East Rochester, none of which contain but a very limited amount of water; any one of which can be pumped dry in half an hour by either of the Engines.

There are pressing wants for larger and better filled reservoir. They should be constructed tight and large, and kept full of water. Some should be constructed immediately in locations where most needed.

There are two good and efficient Hydrants in Rochester Village, the water and power for which are supplied by the liberality of the Norway Plains Company.

Five hundred feet of three inch hose have been purchased the past year, for the Hydrants, and it is believed that with said hose and the two Engines in Rochester Village two streams of water can be thrown upon any building within cleven hundred feet from either hydrant, protecting every business placent Rochester village, including all the depots and freight houses except the Factory of Messis. E. G. & E. Wallace, and the store of C. W. Brown.

I also recommend the purchase of more hose for the

I also recommend the purchase of more hose for the several engines the coming year. The several engines the coming year, The several engine houses are in good order with the exception of lies towers and eigensander them as herein before stated.

A new Hook & Ladden curriage, with hidders and apparatus has been nurchased, accepting to previous vote of the towns which are in perfect order. A Hose carriage is absolutely necessary on which to carry the hydrant hose. Lalso recommend the purchase of such a carriager

It is important that a house should be built immediately in which to keep the Hook & Ladder carriage and Hose carriage. One house can be so arranged as to accommodate both. I recommend that the town take action thereon at the coming annual meeting. The large and rapid increase of buildings and merchandise, and the prospect of a much larger increase in Rochester, East Rochester and Gonic villages, I feel it my duty and am warranted in reporting to you that there is an urgent necessity for the purchase of a Steam Fire Engine, to protect the taxable property in buildings and merchandise from fire. The alarming extent of fires in Rochester village the past year cannot fail to convince every one of such necessity. ... It is most sincerely hoped that every tax-, payer will give the subject that consideration its importance requires.

All the state of the sta Amount of loss by fire in Rochester village for the year ending Feb. 21, 1872, about \$37,300 00 WHORN HE HANDORNE Number of fire alarms for the past year false alarms fires extinguished without alarm Number of fenements erected in Rochester Village, for the year ending Feb. 21, 1872, Number of tehements erected in Gonic Village, Number of tenements erected in Gonic Village,

Av. attendance, 24

DISTRICT No. 4. - Prud. Com., CHARLES CLARK.

The summer term of 8 weeks was taught by Victoria A. Jenness. The winter term of 12 weeks by James M. Hayes, a good teacher; and this district with a good school-house well cared for, have had one of the best small schools in town.

No. of scholars. 5 No. attendance, 42 No. attendanc

DISTRICT No. 5.—Prud. Com., John E. F. Watson.

The summer term of 9 weeks was taught by Ella C. Bickford. The winter term of 15 weeks by Annie M. Seavey. Both schools were good as could be expected with so small a number of scholars, and a bouse entirely unfit for school purposes. We would suggest that there be a change in this district, either by dividing it and annexing one part to No. 4, or that the whole be annexed to district No. 6.

No. of scholars, 9 13 Av. attendance, 6 11

DISTRICT No. 6—Prud. Com., WILLIAM FLAGE.

The summer term of 8 weeks was taught by M. Josephine Ham. The winten term of 9 1-2 weeks by Charles H. Foss; two good and successful teachers.

No. of beholars, 23 (2011) 10/1.

Bearing with the section of the second of the second DISTRICT No. 7.—Prud. Com., Sewell J. Cilley.

The summer term of 12 weeks, the fall term of 10 weeks, and the winter term of 12 weeks, were taught by Amanda S. Ham, assisted by M. Josephine Ham, both experienced and successful teachers, and the schools were all that could be expected from so large a mixed school as this, with the limited accommodat tions furnished by the district. We recommend and hope the district will make suitable provision for a grading of their school

Annual Report of Superintending School Committee, District No. 8, organized under the Somersworth act. 19 光景

Prud. Com., STEPHEN D. WENTWORTH.

There are six different schools in the district, each of which there have been; during the year, three terms of school; the first of eleven, and the other two or twelve weeks each.

High School. Principal, John E. Pike; assistant, first terin, Susan M. Warren.

Whole No. of scholars, 37; average attendance, 26. The most advanced studies pursued have been Latin, Algebra, Physiology, History and Book-keeping.

GRAMMAR SCHOOL. Teachers, James W. Grant and Wm. A. Kimball.

Whole No. of scholars, 42; average attendance, 26. Whole No. of Scholars, 42, average attendance, 42. Whole No. of Scholars, 55; average attendance, 42.

MAIN ST PRIMARY. Teacher, Helen S. Horne.

Whole No. of scholars, 76; average attendance, 61. This school became so crowded in the second term, that it was found necessary to divide it. Accordingly

22 of the scholars during the last five weeks of the term were placed under the instruction of Fannie J. Hayes.

Average attendance, 18. WAKEFIELD-ST PRIMARY. Teacher, Laura B. Parsons. Whole No. of scholars, 48; average attendance, 20. ELM-ST. PRIMARY, Teacher, Hattie A. Harker, Whole No. of scholars, 48; average attendance, 31.

In some of the schools the advancement throughout the year has been rapid and thorough, while in others your committee has failed to detect so marked a degree of progress as desirable.

In reviewing the general condition of our Schools we are satisfied there is a gradual improvement; still we find confronting us many of the objections that have existed in former years, and many obstacles that are very necessary to be overcome before we can hope to have the full benefits so desirable from these instrtutions. We wish it were possible for us to suggest something that might induce our citizens generally to manifest a deeper interest in the welfare of all our public schools.

Order, that first law of heaven, is still too much wanting to have them what they should be.

Our citizens will see by examining this Report, that the average attendance in our schools has not been as good as last year, but the unusual prevalence of epidemics among children accounts for this apparent neglect, to a great extent.

We also desire to call the particular attention of parents, masters and guardians of children, to the recent enactments of law compelling children to attend school, copies of which we have had printed and posted, and so far as possible have kept posted at every school-house in the town during the last six months, and ask the co-operation of every person to aid the Superintending Committee in carrying the same into effect.

In this connection we would ask the serious consideration of our citizens to the provisions of the laws of the State recently enacted, enabling towns to abolish the School Districts therein, and forming but one district in the town, to be placed under a Board of Education consisting of not less than three persons, who shall have and exercise all the powers and duties of Superintending and Prudential Committees.

In case the town should not think it advisable to adopt the law making the whole town one district, your Committee would invite special attention to the recommendations in their Report of last year, in regard to the necessity of better or new school-houses in some districts, and the consolidation of some other districts, so that the number be less, and consequently longer schools and more scholars in what are now very small districts and schools.

We have been notified by the State Superintendent

of Public Instruction, (J. W. Simonds) that a Teachers' Institute will be holden at Rochester for Strafford County, commencing April 15, 1872, and continue through the week; and we would earnestly request all Teachers to avail themselves of the advantages which we believe the Institute affords. And we hope all our citizens will show that they have an interest in educational matters, by giving their personal attendance, so far as they possibly may

Herewith is presented a tabular statement of the several School Districts and Schools, together with such other matters of interest relating to our Schools as we hope may be useful.

All of which is respectfully submitted, by

D. J. PARSONS, Superint g A. LOVEJOY, School C. S. WHITEHOUSE, Committee

March 10, 1872.
